

A detailed digital painting of a winter landscape. In the background, a range of majestic mountains with sharp peaks is covered in snow and partially obscured by low-hanging clouds. The middle ground features a wide, calm lake reflecting the surrounding light. On either side of the lake, dense forests of tall evergreen trees stand on snow-covered banks. In the foreground, a rocky stream flows from the left, its water partially frozen over. The ground is a thick layer of white snow, with some dark rocks visible where the stream flows. The lighting suggests a bright day with sunlight filtering through the clouds, creating a serene and cold atmosphere.
